International  
High School  
of Wrocław

A COMMUNITY OF  
LIFE-LONG LEARNERS!

## ABOUT US

**The International High School of Wroclaw draws on over 30 years of learning and teaching experiences of Foundation of International Education (FIE) and standards of the best international institutions in the world.**

At the International High School of Wroclaw we foster in young people the ability of lifelong learning. By learning and teaching, we are creating a community which respects everyone's right to different opinions, thoughts, and a variety of ways of life.

**At our school everyone matters.**

We focus on the full development of young people – their minds, bodies and characters. This is achieved through a holistic school programme inspired by carefully selected high-quality standards and practices.

A COMMUNITY  
OF LIFE-LONG  
LEARNERS!

## OUR PROGRAMME

Our Mission is to educate the students so they can fully develop their abilities and talents. We focus on building self-confidence for them to achieve success reflecting their individual abilities. We have created a curriculum based on International Baccalaureate Diploma Programme. The International High School of Wroclaw has rights of a public school and is a certified IB World School. For the first grade, we have developed original curricula based on the standards and requirements of IB programmes and, at the same time, we teach the content specified in the core curriculum concerning general education. Each subject focuses on studying and inquiring and is a perfect preparation for the IB DP. The second and third grades follow the International Baccalaureate Diploma Programme which has been present in the Polish education for over 20 years. The programme is based on international standards of modern education, and the obtained diploma is not only equivalent to the Polish Matura exam but also, above all, it is widely recognized by universities around the world.

**“If we teach today as we taught yesterday,  
we rob our children of tomorrow.”**

**John Dewey “Democracy and Education” 1916**
